# IEE Strategic Focus

IEE is an Institute of the Edison Foundation focused on advancing the adoption of innovative and efficient technologies among electric utilities and their technology partners that will transform the power grid. IEE promotes the sharing of information, ideas, and experiences among regulators, policymakers, technology companies, thought leaders, and the electric power industry. IEE also identifies policies that support the business case for adoption of cost-effective technologies. IEE's members are committed to an affordable, reliable, secure, and clean energy future. Their focus is on (a) upgrading and modernizing the nation's electric power grid; (b) using technology to transform the power grid; and (c) driving innovation in end-use electrification that benefits consumers.
