SMART METERS

at a glance

The number of **SMART METERS** installed in the United States through end of 2022

Smart meters enable **TWO-WAY** power and information flows

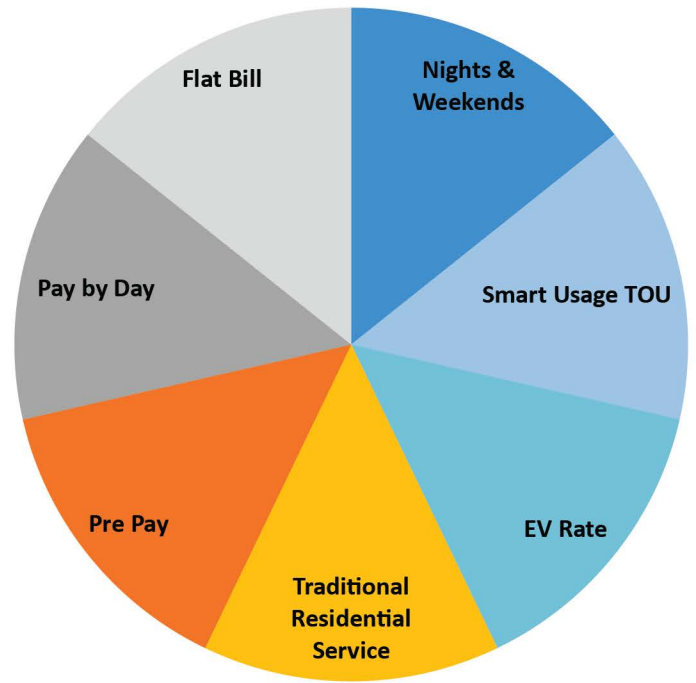

to improve visibility into the **HEALTH OF THE ENERGY GRID**

SMART METER DATA ENABLES EXPANDED RATE AND PAYMENT OPTIONS FOR RESIDENTIAL CUSTOMERS

When given choices, many customers move away from the traditional residential rate.

One size does not fit all. Different rates work for different types of customers.

 **78%**

of U.S. households will have a smart meter in 2022

Smart meters provide customers

INFORMATION & CONTROL
over their home energy use

NUMBER OF SMART METERS INSTALLED (millions)
